

Student Algebraic Geometry Seminar

Organizer(s): Andrew Critch and Andrew Dudzik

Fridays, 4:00–5:00pm, 740 Evans

Fri, Mar 9 **Damien Mondragon**, UC Berkeley

Algebraic Geometric Codes

You want to send a message across a noisy channel to your buddy Gary, but you're afraid that some piece of critical information could get corrupted and he'd receive the wrong message. You remember how bad that turned out last time! Well fear not, for Algebraic Geometry's got your back with some seriously robust codes.

After the seminar, everyone is invited out for drinks and dinner with the speaker.
